Verse 1:

There is more behind a story
Than a hopeless troubled fate
There awaits Your greatest glory
Your power Your victory
I know You can make a way

Verse 2:

In the shadow of my failing
There Your grace it covers me
God You work in my beginnings
In endings, You're moving
I know You can make a way

Chorus:

Even now when my hope is gone
Even now when there seems no way
Lord I know You can do all things
You can roll the stone away
Raise me even on the fourth day
Even now when I'm wrapped in shame
Even now when it seems too late
Lord I know as You call my name
You can turn my life around
I am free for You are here now

Verse 3:

You can see the promise waiting
Yet in here You weep with me
God You hold my every moment
You're sovereign in dead ends
I know You can make a way
I know You can make a way

Chorus:

Even now when my hope is gone
Even now when there seems no way
Lord I know You can do all things

You can roll the stone away
Raise me even on the fourth day
Even now when I'm wrapped in shame
Even now when it seems too late
Lord I know as You call my name
You can turn my life around
I am free for You are here now

Bridge:

All the battles I have lost
All forgotten dreams and hopes
You can make a way beyond the end
All the plans I buried deep
What You promised You will keep
You can make a way beyond the end
No greater power than Your love
Death won't even stand a chance
You can make a way beyond the end
Your glory shows that You are God
The Resurrection and the Life
You can make a way beyond the end

Chorus:

Even now when my hope is gone
Even now when there seems no way
Lord I know You can do all things
You can roll the stone away
Raise me even on the fourth day
Even now when I'm wrapped in shame
Even now when it seems too late
Lord I know as You call my name
You can turn my life around
I am free for You are here now

Bridge:
